Cindi Hayden has been training horses and dogs for more than 25 years. Her instruction is based upon reading and interpreting the body language and energy of the livestock and dogs. She will guide you in interpreting the situations presented and help you to make decisions that will benefit both you and your dog to have success when handling cattle. Each working session will be tailored to the specific dog/handler team. Your working partnership will benefit greatly.

The clinic will be limited to 10 dogs each day with preference given to two day participants. All dogs should have some previous livestock experience and be controllable on livestock.

The cattle will be yearling Herefords and Hereford Crosses that have been conditioned to being worked by dogs.

(These cattle will also be used for ASCA trials this summer)
